Hurrying up the Removals and Appointments.

WASHINGTON, August 24.—The President received a large number of visitors to-day, and was closeted with Thurlow Weed and Raymond a long time. The President is hurrying up appointments in contemplation of several weeks' absence from the city to visit Chicago to make a tour of the country.

The Philadelphia delegations persist in a demand for his removal, although they are willing that he shall be let down with a mission to Madrid or St. Petersburg. Stanton keeps silent to ... as to whether he indorses the Philadelphia movement or not. It is currently believed that he is retained in the Cabinet by the influence of Seward, Weed and Raymond, and that he will be retained at least until the meeting of Congress.

Lewis D. Campbell goes home to Ohio to-day and will run against Schenck for Congress.

Financial and Commercial.

NEW YORK, Aug. 24.—The Post's money article says gold is excited and scarce, ¾ and 1 per cent. per day being paid for loans.

The Commercial's money article says the stock market exhibits more strength. Government securities are in better demand. The present corner in cash gold is the most severe ever known in the gold room. Transactions in foreign exchange are checked by the unsettled condition of gold, and the demand for large lots for the purchase of gold has checked the downward tendency of money, arising from the large disbursements of the treasury on account of the redemption of a temporary loan. It is expected that the treasury will disburse about $50,000,000 in currency, but will not sell any of its specie reserve.

The Post's money article says gold continues scarce, and one per cent. is paid for money on delivery. Cotton steady at 33½@34. Flour at 10@15 lower. Government securities without decided change. Liverpool freights dull.

It appears that the Wall street bankers who lately combined in a letter asking the Secretary of the Treasury to sell gold for the relief of commercial interests are the very gentlemen who are cornered on gold, and being bled by the combination which now controls all the available gold in the market.

This evening's Commercial says the bull combination can run up the premium as they please, and that the exchange market is deranged by the peculiar condition of gold, holders of bills being anxious to sell, without purchasers, because importers are reluctant to buy at the present rate of gold.

An Appeal to Southern Unionists.

The following appeal to Southern Unionists is published to the loyal hearts of the nation: Ninety years ago our fathers proclaimed a new theory of government, founded on protection to the rights of the citizen. On the 5th day of September, it is proposed to hold a grand mass meeting in the shades of Independence Hall, in the City of Philadelphia, to re... the doctrines of our ancestors. All who believe with our fathers that the Constitutional rights of the citizen are the first and paramount object of a Republican government, are ... invited to attend. The three hundred thousand Union defenders from the South and the ranks of the Union army send greeting to the brave veterans of the North through our representative delegates to the Convention of Southern Union States. We send a hearty invitation for our comrades in a common cause to meet us on the spot made sacred to liberty. Come one, come all! Come in the uniform of blue! Come as you came to the South on the great mission to relieve it from the despotism of usurping traitors. Come as you came when you caused the hearts of depressed Unionists to leap with joy at the re-appearance of the old flag, upheld by strong ... and brave deeds. Let the Unionists of the North and South come together and renew the pledge to sustain liberty, order and law.

OFFICIAL PAPER OF THE STATE.

MONDAY MORNING, AUGUST 27, 1866.

Work to be Done.

We do not care to place ourselves in the attitude of seeming to dictate to the Legislature; but in common with our fellow-citizens, we feel a deep interest in what may be done or left undone.

The most important action which the Legislature will be called upon to take, will be upon the Constitutional Amendment, and the election of an United States Senator. The amendment should be adopted unhesitatingly and without delay. There can be no argument against taking action upon it, such as was urged against the former amendment—that it had not been in issue before the people; for, practically, the questions involved in the amendment, have been under discussion everywhere, for many months, and nobody can be taken by surprise, if the Legislature shall make that its first business after organizing. The sentiment of the Union majority of Oregon is unquestionably in favor of ratifying the amendment, and they expect their representatives to do it, before adjournment. No representative can properly acquit himself of his responsibility if he waver upon this great issue, or hesitate to meet it at the first practicable moment. We do not deem it necessary to present any argument to Union men, at this day and under the present circumstances, in favor of the amendment. In our view there cannot be two opinions among Union men, on the question whether Oregon should ratify the amendment. It is only a question whether they shall vote for it at the opening, or permit it to slide along into the middle or latter part of the session. We have conferred with many of the leading men and the rank and file of the Union party throughout the State, and we find the unanimous opinion to prevail that action should be taken at the earliest possible day.

On the matter of electing an United States Senator, we have this to say: We have no such preference for any individual as would lead us to jeopardize, in the smallest degree, the election of a sound Union man—be he who he may. The paramount interest of the Union party, and with it the State, is to elect a Union man. Whether it be A, B, C, or D, is altogether a secondary consideration. With a loyal majority, Oregon should not be represented by either a semi or full-blown Copperhead. What we advise, and we do it after very full conference with Union men of all parts of the State, is, that a conference of all the Union members be held on the very first day of the session, to which shall be submitted the claims of every candidate, and whomsoever shall receive the preference of a majority in such conference, shall be considered the candidate. This matter being decided, let the Union members provide at once for a joint convention and go in and elect the nominee. It can all be done within seventy-two hours after the organization, and if in less time, all the better. We think that, in this matter, the ambitions of the candidates must be secondary to the interests of the Union party and the State, and that any candidate who may, by obstinately declining to thus surrender his claims to a conference, endanger the election of some true Union man, will find himself very suddenly left without many friends among the Unionists of the State. Whether such a course shall result in the election of our first choice or somebody's else first choice, is quite immaterial when compared with the importance of electing somebody who can be trusted as a true friend of the Union. We shall be content, if any one of several prominent candidates, shall be chosen; and so ought every Union man to feel, think and act. We repeat, let the amendment and the election of a Senator receive the very first attention of the Legislature. Delay can only enure to the advantage of the enemies of the Union party.

Present Position of the Northern Pacific Railroad Enterprise.

A few days before the adjournment of Congress the Pacific Railroad Committee reported to the Senate a bill providing a Government guarantee for the interest on the stock of the Northern Pacific Railroad. The original bill was amended in some particulars, and the amount of interest to be guaranteed somewhat reduced as compared with the former bill. By these amendments the whole route was to be divided into three sections; the first section to commence at Lake Superior, reaching westward to the 111th degree of longitude, a distance of about 1,100 miles. The second section is comprised between the 111th and 119th degrees of longitude, and is estimated at 520 miles in length. This is called the Mountain District of the road. The third section lies between the 119th degree of longitude and the proposed terminus on Puget Sound. On the first section the proposed guarantee is for the interest on the stock of the route at the rate of $16,000 per mile. On the second section the guarantee is for interest on the stock at the rate of $48,000 per mile; and on the third section, at the rate of $32,000 per mile. The amount of aid provided for in the bill is computed at $59,760,000.

Mr. Howard, Chairman of the Committee, said that he did not expect the Senate at so late a period of the session to take final action on the bill, but that it was expected it would be called up again at the next session. The friends of the bill, finding it impossible to get it through, had no alternative but to submit to its postponement until December next, when it will be taken up again, with a good prospect, as is supposed, for its passage. This is the shape in which the matter now stands. Judging from the debates and votes in the Senate upon the subject, there appears to be an earnest disposition among most of the members of that body to vote the aid asked for the enterprise.

Falstaff on Forgiveness.

The rebels and Copperheads have nowadays a great deal to say about the Christian virtue of charity, and their willingness to overlook and forget the past and forgive their enemies. This is very fine indeed, considering that the wrong all lies at their own door. Such magnanimity is very well illustrated by the conduct of the Fat Knight in the play, who when his hostess demanded her pay for his "diet and by-drinkings" the dozen shirts she had bought for his back and the four and twenty pounds she had loaned him, put on the air of one who had been deeply injured and grew outrageous,—but finally, (though without offering to pay the money) became mollified; magnanimously forgave her the wrong she had done him, commanded her to make ready the breakfast, look to her servants and cherish her guests; promised that she should find him tractable to any honest reason, and assured her that notwithstanding her unreasonable treatment, he was already pacified!

The poor old misanthrope of the *Herald* solemnly assures everybody that he never drew any obligations from any source whatever. We "draw the inference," therefore, that he is the same poor unfortunate alluded to in Lycidas, who was fated

"To scorn *delights*, and live laborious days"

In speculating upon the causes of his unrest we should probably be led to remark—if conscience and he were not utter strangers—that "a little conscience is a dangerous thing."

Scurrilous epithets invariably betray in those who use them, vulgar instincts, low breeding and a bad cause, and are uniformly the accompaniments of falsehood.—*Herald.*

NEWS BY THE ATLANTIC CABLE.

NEW YORK, August 25.—Foreign advices contain the following: On the 8th the Extraordinary Commissioners, accompanied by Gen. Clay, the American Minister, had an interview at the Palace of Peter Hoff, with the Emperor, to whom they presented the following address:

"SIR: The resolution which I have the honor of presenting to your Imperial Majesty is the voice of a people whose millions of lips speak from a single heart. The many ties which have long bound the great Empire of the East and the great Republic of the West have been multiplied and strengthened by the unwavering fidelity of the Imperial Government throughout our recent period of convulsion. The words of sympathy and friendship addressed to our Government by command of your Imperial Majesty, are fixed in their hearts and all do homage to that noble act of humanity which is especially referred to in the words of Congress: 'The peaceful edict of an enlightened sovereign has consummated a triumph over an inherited barbarism which our western republic has only reached through long years of bloodshed.' It is therefore with profound emotion that I offer to your Imperial Majesty, to the emancipated subjects, and to all the people of this vast realm our heartfelt congratulations on the providential escape from danger which led to this spontaneous expression of regard for the attempt, and thankfulness for its merciful arrest. The story of the peril from which a kind providence has delivered your Imperial Majesty, brings with it the remembrance of the mighty sorrow which so recently filled every loyal heart in our own land, at the sudden death of our father. We thank God that a grief like this was spared to our friends and allies, the Russian people. May the Father of all nations and all rulers, protect and prolong the life which he has thus signally preserved, is the voice of the people to which it belongs, for the good of all mankind and for the glory of His name.

Assistant Secretary of the Navy.

The correspondent of the London *Post* says: "I have information as to the object of Empress Charlotte's visit to Paris. It is to obtain a release from the obligation of paying what is due to France out of the proceeds of the Mexican custom house. The invasion of insurgent Republican bands have greatly reduced their proceeds which are now confined to the port of Vera Cruz. The Mexican Government requires with the strictest economy $500,000 monthly for its indispensable expenses, and for some time past it has not been in receipt of more than two fifths of that sum from the customs. The financial condition of the Mexican Government is thus reduced to the lowest ebb."

LIVERPOOL, August 25 noon.—The steamship Scotia sailed for New York to-day. She takes $110,000 in specie on American account.

DUBLIN, August 23.

The address of the King, embodying the principles of the moderate party, has passed the lower house by a large majority. There were only twenty-five negative votes and these were of Poles and Catholics.

MUNICH, Aug. 24.—The districts which Bavaria cedes to Prussia are those of Graisfeld, Heller and Thomas in Lower Franconia, containing 40,000 inhabitants.

PARIS, 23.—The Empress of Mexico has gone to Miramar.

LONDON, Aug. 25.—The following dispatches have been received:

VIENNA, Aug. 23, P. M.—The Emperor Francis Joseph has determined to strengthen his Empire as well as his hold upon the affections and loyalty of his subjects, by granting a new Constitution and Ministry to Hungary. It is announced officially that a new Ministry will soon be formed for Hungary upon the the basis of the Constitution granted to the Magyars in 1848, the revocation of which was the cause of the Hungarian revolution of that year.

PARIS, Aug. 23.—The Empress Charlotte will not return to Mexico, and it is conceded on all hands that the Empire in that country approaches its end. It is authoritatively announced that if additional French troops be sent to Mexico it will be only in sufficient numbers to protect the interests of the French subjects during the fall of the Empire, and to secure a quiet evacuation of Mexico, and they will not be used to sustain the dynasty of Maximilian.

PRAGUE, Aug. 25.—The cession of Venetia to Italy was fully accomplished before the treaty of peace between Prussia, Austria, Italy and Bavaria was signed. Austria freely and unconditionally ceded Venetia to Victor Emanuel.

LONDON, Aug. 25.—Evening advices received from Point DeGalle on the Island of Ceylon via the Persian Gulf and Mediterranean state that a civil war has broken out in Japan.

LIVERPOOL, August 25, P. M.—The market rules steady to-day—quotations unchanged. Sales of 8,000 middling upland cotton quoting at 13½c per pound.

Breadstuff market dull. Provisions, market unchanged.

LONDON, August 25, P. M.—The money market is firm. Consols closing to-day at 88⅝ for money. American stocks are steady. 5-20's closing at 70¼.

OUR SAN FRANCISCO DISPATCH.

From Mexico.

SAN FRANCISCO, Aug. 26.—The Mexican Imperial Consul's official dispatches dated Sonora, Aug. 8th, state that Morales, after his defeat at Hermosillo, was pursued by the Imperialists under Gardora and overtaken at a place called Pitiquieto. A severe engagement ensued, resulting in the complete rout of the Liberals, who took refuge within the American lines, leaving thirty dead and one hundred and fifty prisoners, and all their baggage and ammunition in the hands of the Imperialists. Pesqueira was being vigorously pursued. American filibusters under General Vega left La Paz August 5th to reinforce the defeated Juarists, who received in exchange for 1,500 stolen animals the [illegible] means to prosecute hostilities. All quiet in Sinaloa. The story of Lozada's defection is pronounced false. A Durango letter of July 6th states that the French had received orders to evacuate San Salvador. The evacuation of Durango would commence Aug. 6th.

A scheme has been formed to retain the French soldiers in the service of Maximilian, by inducing them to re-enlist in forty battalions each to consist of 300 French and 600 Mexicans. This would secure the services of 13,000 foreigners for the Mexican Empire.

Captain Cooley of the brig *L. C. Foster* was lost overboard, ten days out from San Francisco, and drowned.

The condition of all parties injured by the falling of the Summer Street House is even more favorable than could be anticipated. Those in the county hospital are all doing well. Young Whittier who was supposed at first to be beyond hope, has survived the period of inflammation, and his physician has now some hopes of his recovery.

The number of deaths in this city last week were 44.

The Panama steamer has not been telegraphed yet.

Money Market—Mining Stocks.

A private telegram dated New York, August 23d, says that gold has been made artificially scarce, and is being loaned at ½ and ¾ per cent. per day, equal to 15 and 22 per cent. per month, a rather high rate even in that city. Gold on the same day was quoted at 150.

Sterling exchange was completely prostrated, and no quotations could be given.

Another telegram, dated yesterday, says that gold is fluctuating at 148¾, and sterling exchange is irregular.

Commercial bills on London were quoted at 104¼@105½, and bankers' bills at 106½@106¾. Leading banks here have advanced the rates of telegraphic transfers to 5 per cent.

A dispatch from London states that the Bank of England has reduced the rate of interest to 7 per cent., and that U. S. 5-20's were 70@70¼, an advance from the quotations a week since.

There is a very [illegible] in the local money market at unchanged rates, 1@1½. A slight [illegible] in the supply is now visible, which is [illegible] an indication that the pressing demands for money have been met, and hereafter more ease in the market may be expected.

The large sums of money remitted to the interior in payment for grain, will eventually come back to this city, and not only render money more easy here, but give renewed activity to trade.

The market for legal tenders is unchanged, brokers buying at 71 and selling at 71¼.

The aggregate sales of stocks, legal tenders, etc., for the week amount to $384,444, against $335,751 for the previous week. Trade for the week has been fairly up to the average for the last few weeks.

The jobbing trade continues quite active, and steamers go daily loaded with freight.

Mining stocks are a little off to-day—the decline running nearly through the entire list from the morning board.

Yesterday Crown Point advanced $25; Empire Mill, $2 50, and Confidence, $2.

Savage declined from last evening $25; Yellow Jacket, $2 50; Ophir, $10; Overman, $4; Chollar-Potosi, $2, and Bullion, $1. Sales of the California Steam Navigation Company at $18.

Shipping.

Arrived—Steamship *Orizaba*, 48 hours from the Columbia river; steamship *Sierra Nevada*, 7 days from Victoria, bark *Kodiak*, 22 days from Honolulu.

Aug. 25.—British ship *Empress Eugene*, 51 days from Manilla with sugar; British bark *Spirit of the Sea*, 49 days from Hongkong; brig *Woodland*, 56 days from Iquique.

Sailed—Aug. 24th, bark *Mary*, Bellingham Bay.

Aug. 24, bark *Alice Bisbond*, Sunderland.

STATE ITEMS.

Five immigrant teams arrived at Albany last Monday.

Lieut. W. I. Henderson has been ordered to Fort Boise.

Lee & Ryland's circus is exhibiting in Southern Oregon.

The editor of the Eugene *Journal* has gone to Yaquina Bay for a bout at oyster-grabbing.

Elder A. V. McCarty of the Christian church, has removed with his family to California.

The attorneys of the United States, the Hudson Bay Company and the Puget Sound Agricultural Company, are taking testimony at Oregon City.

A State prisoner named Kennedy, sent from Grant county for seven years, made his escape last Wednesday. While being returned from work with other prisoners, he slipped behind a pile of wood, laid down, and thus his absence was not observed.

The Grand Lodge of the order of Good Templars, will meet at Salem on Tuesday, September 4th. The order has taken such hold upon the State that the coming Grand Lodge will probably be the most imposing convention of a secret order ever held in Oregon. Success to the order.

We understand that Mr. Myers, the owner of "Coburg" and "Capt. Sligart," intends to take some of his fine Oregon stock to California this fall, for exhibition at the State fair. He has a pair of yearling Coburg colts, broken to harness, each of which weighs over nine hundred pounds, and measures fifteen hands high.

A telegram from Oregon City yesterday, 20th, says: Combey, a Frenchman, a resident of Portland was found dead back of this place to-day. The coroner's jury returned a verdict that he had accidentally shot himself while hunting. He formerly lived with Mr. Toner, near where he was hunting. He had been dead about a month and was much decayed.

We are informed, says the Corvallis *Gazette*, that a petition is being circulated and signed, by persons interested, to be forwarded to the Postmaster General, for a mail route, semi-weekly, from Corvallis to Beaton, Linn county; thence to Brownsville, in same county, to be a continuation of the proposed route from Yaquina Bay to Corvallis.

FROM WASHINGTON TERRITORY.

We clip the following from the Vancouver *Register* of the 25th:

THE COLUMBIA LEDGE.

The owners of Columbia ledge met at the District Clerk's office in this place, on Tuesday evening last, for the purpose of entering into a permanent organization. H. L. Caples, Esq., was elected President, and C. A. Freeman, Secretary. The following gentlemen were elected directors of the company, to-wit: G. W. Durgan, S. W. Beall, H. L. Caples, C. A. Freeman and M. Wintler. The Directors were instructed to draft a Constitution and By-Laws for the company and report in two weeks from that time. An assessment of ten dollars on each share was made for the purpose of carrying on the work of the company.

ASSIGNMENT OF ARMY CONTRACTS.

Among the important events of the week, was the assignment of contracts for army supplies. Mr. James Crawford of this place got a contract for 202,000 pounds of oats, at 1 43-100c per pound; 130 tons of hay at $22 75, and 50 tons of straw at $7 75. Mr. Imbrie, of Oregon, got a contract for same amount of oats at same price. Mr. John Proebstel of this county got a contract for 30 tons of hay at $20, and Mr. McGrath of this place for 1075 bushels of charcoal at 12½ cents.

THE INSANE OF THE TERRITORY.

We had a call a few days since from Mr. H. D. Huntington of Monticello. He informs us that the insane recently taken from this place to that are well pleased with their situation. The gentlemen who have them in charge have the contract for five years. This will justify them in making proper and ample arrangements for their accommodation, which we are glad to learn they are doing. They are preparing to give them a favorable opportunity for garden labor and other outdoor exercise. This will invigorate both mind and body. We sympathize deeply with the insane. They are the most unfortunate of mankind, and should be treated with the utmost tenderness consistent with a proper discipline and government. We are glad to believe that these unfortunate people are in good hands.

THE CROPS OF COWLITZ COUNTY.

Mr. H. spoke encouragingly of the crops, and future prospects of Cowlitz county. A valley of rich land lying back of Monticello only a few miles, is attracting considerable attention, and flourishing settlement, known as the Bennett settlement, is springing up.

GOING AHEAD.

We are glad to notice that Messrs. Durgan and Company, who were burned out by the fire Thursday morning last, immediately transferred their stock of meats to a building near by, on the opposite of the street and are going ahead as if nothing had happened. It is their intention to rebuild immediately and probably with brick on the same ground occupied by their former building.

FROM MONTANA.

The Helena *Republican* of Aug. 7th says:

The Park mill is still prospering. A clean up of fourteen hundred dollars was made last week, after four days' run upon quartz from the Park Lode.

The material for the new Democratic paper, the "*Gazette*," arrived last week, and is being put in shape at the school house on the hill, formerly owned by Prof. Patch.

The Virginia City *Post* of the 14th has the following:

The Banks take Greenbacks at eighty cents.

Thomas Daylamore, owner of the Monitor Lode, in the Hamilton District, is running a twelve stamp mill, and has cleaned up $250 to a cord.

Mr. Stanley's train of thirty wagons, laden with machinery for S. D. N. Bennett's quartz mill, will arrive in a few days.

Mr. John Caffrey is manufacturing shingles at the rate of from seven to ten thousand per day, using an overshot water wheel for the power.

Capt. Ralph Bledsoe, recently from Idaho Territory, left Wednesday morning, with a party of two hundred miners, for the purpose of prospecting the Wind River Mountains. The Captain thinks that he will be able to travel through this country, which has heretofore been unprospected, on account of Indians, without molestation. It is generally believed that the Wind River Mountains abound in minerals, and we may expect soon to hear of "Wonderful discoveries" of note.

It is reported that one quartz mill is in successful operation in Bannack, and that several others are expected to start soon.

The local editor of the *Post* has been shown a fine prospect taken from Granite Gulch, situated six miles northwest of this place, of forty-five cents, from two pans of dirt which were obtained, one from the bedrock, and the other five feet above. Mr. James McEvily, the discoverer, and nine other gentlemen have formed a hydraulic company, and have taken up eighteen hundred feet on the bar, and propose to have five hydraulics in operation in the course of eight or ten days. Mr. Corlett, civil engineer, has completed the survey of the ditch, which will supply them with one thousand inches of water from the head of the gulch.

The Alder Gulch mines are "panning out" well. The California Company, near Nevada, are working very successfully. Dunnegan and McGovern are also doing well. McDonald is striking a good lead in king dirt, and expects to make a big clean-up this week. Levi Lusk has quite a number of hands employed, and some confident of taking out "a pile" ere the season closes. The company at work on Summer Dan's-bar, below here, are taking out big money, having their ground well opened and working it with hydraulics.

A nugget of pure gold, weighing nineteen ounces, was taken out last week, in the dry gulch lately opened near the head of Bivins. The gold in this gulch is coarse, and bids fair to be as rich as any yet discovered.

We learn that a report was in circulation at Salem last week to the effect that the OREGONIAN had found itself on the wrong side and would soon advance backward into the support of "my policy." We beg leave to decline making any such jackassical somersault as that—it would be Sumner-like, diabolical, but we can't see it. We are not particularly in need of any of Johnson's bread and butter. In fact, we beg to decline taking stock in the Johnsonian-Nicklebyan United Improved Metropolitan Hot Muffin and Crumpet Baking and Punctual Delivery Company.

Gen. Dix was temporary President of the Johnson Convention at Philadelphia. An exchange remarking upon this circumstance, says: Suppose he had re-issued his celebrated order in the past year, "let any man who has hauled down the American flag be shot on the spot!" The Convention would have been floored. Dixie would have lain in heaps—"dead ducks" and "dead dogs" everywhere.

PHOTOGRAPHIC DIAMONDS.—ELLSWORTH & CARDWELL, at their GALLERY, 80 First Street, lead all others in the production of every kind of PICTURES, and hold the same rank in the Photographic Art as the diamond, ruby, topaz, onyx and emerald do among the precious gems. Within the last few days, this establishment has executed some specimens of exquisite workmanship and is fully prepared to hold its position at the front without fear of successful competition.

THE QUEEN'S SECOND DISPATCH BY THE ATLANTIC CABLE, is to the effect that MESSRS. KOHN & FISHELL, at the St. Louis Store, are now receiving and are selling the most fashionable and desirable costumes of gents' wearing apparel, at the cheapest price. Call and be convinced, at 111 FRONT STREET.

If there is a person on this coast who wishes to purchase a reliable Sewing Machine that does not require repairs every three months, let them buy a Grover & Baker Elastic Stitch Sewing Machine.

The ma-[illegible] of two double circular saws, one of Wood-[illegible] for dressing, and tongueing and [illegible] and a complete set of saws for Lath and [illegible]. Two water wheels supply the motive power, [illegible] overshot, 36 feet in diameter, with ten [illegible] and one very much smaller, invented by Mr. [illegible] which is the wonder of all who have [illegible]. This latter wheel is called by the inventor a [illegible]." It occupies a space of but ten [illegible] twelve inches of water under a [illegible] feet fall, and furnishes power equal to twelve [illegible] power which will raise 384,000 lbs., avordu-[illegible] per minute. Mr. Trullinger is about [illegible] the manufacture of these wheels in Port-[illegible] that it will soon revolutionize [illegible] of water power as existing the present day. [illegible] in the rear of this mill, perhaps a mile from [illegible] river, a new steamer—the Minnehaha, [illegible] long, of sixteen feet beam, and three feet [illegible] by two 10-inch cylinders of 18 inches [illegible]. THE LATEST STYLE OF FINE ART PICTURES.

This attention of the public is invited to the fact that JOSEPH BUCHTEL'S PIONEER GALLERY, corner of First and Morrison streets, Portland, Oregon, is the only place in this State where those beautiful SUN PEARLS are produced in a manner equal to the art in San Francisco, New York or European cities. Having employed the services of the best Operator upon the Pacific Coast, Mr. BAGNASCO POLICARPO, of Paris, late of San Francisco, the undersigned is better prepared than any other Gallery to furnish all styles of Pictures known to the Art. The public are respectfully invited to call and examine specimens, which will be sufficient to convince the most skeptical of the truth of the above statements. Critics are invited to call. DRY GOODS.
Messrs. [illegible] & Co., No. 9 Lick House, Montgomery st., will never get through selling their immense stock of dry goods, piled up in their retail store as above; so they say. And why? We say, because they replenish their stock every day, from their wholesale house on Battery street, and increase their Battery street house from the New York house. That is why they can afford to sell goods so much cheaper than any other dry goods establishment in San Francisco. Packages of goods sold are sent home to the purchaser the same day, by their porters, who are kept busy on the run. Now, ladies, you have the [illegible] why [illegible] & Co. sell so much and at such low prices.

A Word to the Aged.—In the decline of life the loss of vital force consequent upon physical decay, can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged.

DR. HOSTETTER'S STOMACH BITTERS,
As an invigorant and restorative, immediate in its beneficial action and permanent in its effect. It tones the stomach, improves the appetite, acts like a charm upon the spirits. For dyspepsia, oppression after eating, bilious cholic, wind cholic, spasms of the stomach, sick or nervous head-ache, chills and fever, prostration, and all the complaints special to the feebler sex, the Bitters are earnestly recommended by those who have [illegible] their superior efficacy in such cases. Sold by all druggists and dealers everywhere.

GRAEFENBERG
UTERINE CATHOLICON
If faithfully used according to directions, will cure every case of Diabetes, and greatly mitigate the troublesome effects caused by a relaxation of the outlet of the bladder. It is a most successful remedy for Gravel and other diseases of the Kidneys and Bladder, and for Female Diseases is unequaled. The Catholicon uniformly cures Prolapsus Uteri, Whites, all Irregularities of the Monthly Turns, Suppression, Incontinence of Urine, Bloating and Dropsical Swellings, and all Diseases of Pregnancy. The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments, restoring them to as healthy a state as those of childhood and youth, so that patients who have used the Graefenberg Company's Uterine Catholicon cannot sufficiently express their gratitude for the relief afforded. S. T.—1860.—X.
Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try the celebrated
PLANTATION BITTERS,
Which are now recommended by the highest medical authorities, and warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy, gentle stimulant is required.
They purify, strengthen and invigorate.
They create a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.
They strengthen the system and enliven the mind.
They prevent miasmatic and intermittent fevers.
They purify the breath and acidity of the stomach.
They cure Dyspepsia and Constipation.
They cure Diarrhea and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.
They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars, see circulars and testimonials around each bottle.
Beware of impostors. Examine every bottle. See that it has our private U. S. Stamp unmutilated over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not refilled with spurious and deleterious stuff. Any person pretending to sell Plantation Bitters by the gallon or in bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters or not, is a criminal under the U. S. Law, and will be so prosecuted by us. We already have our eye on several parties re-filling our bottles, &c., who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.

HOSTETTER'S
CELEBRATED STOMACH BITTERS.
READ AND REFLECT.
Make sure of HEALTH. "But how?" you ask;
We answer, 'tis an easy task,
Strengthen the STOMACH, and sustain
The NERVES, the servants of the brain.
The LIVER keep in active play
And regulate, from day to day,
Each organ all, on Nature's plan,
Brace and refresh the INNER MAN,
And like a watch that's kept in chime
By constant care, with railroad time,
The system's tone and strength renew,
And thereby cheer the spirits, too.
"How," you inquire, "can this be done?
This Victory o'er Disease be won?"
"HOSTETTER'S BITTERS," we reply,
Is HEALTH'S SUPREME PALLADIUM. TRY!

As a means of regulating the disordered and enfeebled system, regulating every function of the internal organs, reviving the depressed spirits, invigorating the constitution, and prolonging life, no medicinal preparation, either of the past or the present time, has been so [illegible] and universally [illegible].

HOSTETTER'S CELEBRATED STOMACH BITTERS.
Against the vapors foul prepare,
That fever-taint the heavy air,
Drink not unmixed the water found
In prairies, woods or marshy ground.
If sedentary toil you ply,
Never you must [illegible] or die—
For whom debarred from ex[illegible]
For artificial aid she cries.
Medicine's grand purpose and intent
Is threatened evil to prevent.
And if you'd be relieved or spared
From ills that crush the unprepared,
Hostetter's Bitters [illegible] for note
They are the SUREST ANTIDOTE

To set at defiance the [illegible] of [illegible] filthy soils, the [illegible] of unwholesome water, the effluvia of crowded work-rooms and factories, and the baneful influence of [illegible] employments, it is only [illegible] to be fore-armed with

HOSTETTER'S CELEBRATED STOMACH BITTERS.
Dyspepsia's pangs, that rack and grind
The body, and depress the mind;
Agues, that as they go and come,
Make life a constant martyrdom;
Colics and dyspeptic pains,
Neath which the strong man's vigor wanes;
Bilious complaints, those tedious ills,
Ne'er conquered yet by drastic pills;
Dread diarrhea, that cannot be
Cured by destructive mercury;
Slow constitutional decay
That brings Death nearer, day by day;
Nervous prostration, mental gloom,
Heralds of madness or the tomb;
For which, though mineral nostrums fail—
Means of Relief at least we hail,
Hostetter's Bitters, medicine sure,
Not to palliate alone, but cure.

In dyspepsia, fever and ague, bilious complaints, constitutional and nervous debility, constipation, seasickness, spasms, and in all complaints of Man or Woman, proceeding from [illegible] or inherent weakness of the body, the one great remedy and restorative is

HOSTETTER'S CELEBRATED STOMACH BITTERS.
To wanderers on sea or land,
From Polar shore to Tropic strand;
To [illegible] lands lone, in regions new,
And dwellers in great cities, too;
To soldiers in camp, fort and field,
Who need against ills a shield;
To miners, California bound,
And tillers of wet, marshy ground;
To feeble wives of fragile mold,
To young and middle-aged, and old;
To those in health, who would enjoy
Heaven's best gifts without alloy;
To all the strengthless, weak and pale,
Who droop, yet know not what they ail,
Hostetter's Bitters we present
As Health's most potent element.

If there is any value in public opinion, or any weight in medical testimony, the very best and safest Tonic, Corrective and Alterative now before the world is
HOSTETTER'S CELEBRATED STOMACH BITTERS.
Sold by respectable druggists in all parts of the world.

M. E. Conference Report on Education.

As ministers of our Lord Jesus Christ, we cannot be indifferent to the claims of christian education. To train and inform the mental faculties, and to develop correct moral principles and virtuous sensibilities, is admitted by all to be the work of the true teacher; but the lessons of Holy Scripture and the motives of christian civilization are, in our judgment, the most efficient instrumentalities. Besides, we need the especial influence of the Holy spirit upon the heart to give vitality and power to these instrumentalities. In accordance with these views, the Oregon Annual Conference commend the institutions of learning under their patronage to the favorable consideration of the public, and invite special efforts and prayers for the quickening influence of the Holy Spirit upon the hearts of instructors and students.

1st, The Willamette University is an institution of the first grade, and has the chief claim to the sympathies and efforts of the church in Oregon. For permanence and facilities, and practical usefulness, it is second to no institution of learning on the Pacific coast. It is located at Salem, and during the past year has been under the Presidency of Rev. J. H. Wythe, A. M., M. D., a member of this conference, with 3 male and 4 female assistants. The number of students for the past year is as follows: Collegiate department—senior, 10; junior, 1; sophomores, 3; freshmen, 9. Preparatory department, 63. Female department—seniors, 9; middle year, 10; juniors, 16; Preparatory department, 23. Academical department, 85. Primary department, 10. Total, 309. The recent commencement exercises of the University were of unusual interest, and showed increasing prosperity and advancement in the work of instruction. The graduating class was, we think, more numerous than any heretofore on this side the Rocky Mountains, and for ability will compare favorably with those of eastern colleges. The visiting committee of the conference report that the examinations "deserve especial mention for the thoroughness and impartiality evinced on the part of teachers, and the marked proficiency of the students."

The following estimate exhibits the financial condition of the university:

Value of ground, building and furniture	$40,000 00
Endowment fund and accumulated interest	29,000 00
Value of apparatus	1,200 00
Receipts from year's tuition	3,500 00
" " other sources	2,000 00
Due on uncollected debts	5,000 00
Total	$80,700 00
Indebtedness	2,500 00
Total assets	$78,200 00

The new university building approaches completion, and will be an ornament to the State of Oregon. A part of it is expected to be occupied some time during the present year. From the report of the agent, we find that the amount expended on the new building has been $26,647 36, of which there has been collected and paid, $20,471 47. The total subscriptions are, $30,082 08.

It is with pleasure that we refer to the fact that during the past year the students of the university have shared in the results of a gracious revival of religion at Salem. A large number of them have expressed a determination to live a religious life, and about 25 have united with the M. E. Church. We earnestly hope that this religious interest will continue, and spread through all our educational institutions, and that every year will witness the conversion of many of our students to God.

The trustees of the university contemplate the speedy establishment of theological, medical, and law departments, and of a normal school. It may be well to say that we deem the time has fully come to inaugurate such provisions that our young men need be under no necessity of going to other States for professional instruction. We [illegible] that the memorial offerings of the church during the centenary year will be sufficient to establish a department of theological instruction which will prove a great blessing to the church and ministry.

During the past year the Missionary Board at New York, in consideration of ten perpetual scholarships, have agreed to transfer to the trustees of the University all their lands in and about Salem. The necessary papers have not yet been received, but are expected daily. This transfer will place the permanence of the University beyond peradventure.

2. The Portland Academy and Female Seminary. Owing to the difficulty of procuring the services of a proper principal, the trustees report that the institution has not been in so flourishing a condition during the past year as formerly. They now propose to place the Academy under the charge of Prof. T. M. Gatch for the next six years. His well earned reputation inspires confidence. Under his supervision the school will doubtless assume a high position.

3. The Santiam Academy at Lebanon. This institution has had its usual prosperity during the past year. The visiting committee report Rev. Woodward, the principal, and his [illegible] teachers to have been diligently laboring to make the school all that a first class academy should be. The examination was critical and thorough, and evinced that the classes had been faithfully drilled, and had made great proficiency in their respective branches of study. The whole number of pupils the past year was 109. Number of teachers, 4. The building is not finished, but is free from debt. In view of the valuable labors expended, and the means invested, we could wish that its surroundings were more favorable.

4. The Umpqua Academy, Wilbur, Douglas county, Rev. T. F. Royal, Principal. The location of this institution is eminently beautiful and healthful. It is in a moral community, and being remote from other high schools, is regarded as not only a necessity to the country, but promising great usefulness to the church. From the representations of the trustees and visitors, and the statistics in the printed catalogue, it is evident that the year just closed has been one of increased prosperity. There have been 4 teachers employed, and 124 pupils in attendance. The proceeds amount to about $1,500. During the year $1,209 have been subscribed to furnish educational facilities, of which $439 47 have been collected and expended.

5. The Oregon City Seminary. The building has been rented to the city during the year for the sum of $125. The building and grounds are estimated to be worth $3,000.

The committee on education recommended the adoption by the conference of the following resolutions.

Resolved, 1. That this Conference congratulate the trustees, faculty and friends of the Willamette University upon the increasing prosperity and efficiency of the institution, and commend the university to the consideration and patronage of our members.

2. That we recognize our educational institution as an integral part of our ministerial work, and rejoice that they have been the recipients of so much spiritual prosperity.

3. That on the 4th Thursday of February in each year, as provided for by the Discipline, we will call the attention of our members in the various charges to which we are assigned, to the religious interests of our educational institutions, and unite with them in [illegible] prayers for the conversion of our children to God.

4. That we regard the common school system as one of the best safeguards of American citizenship, and rejoice in the general spread of knowledge by its means. So far from regarding it as an opponent or a rival of institutions of a higher grade, or of a more distinctively religious character, we recognize in it a valuable assistant to the progress and development of the people, both in virtue and learning. While we should deprecate any perversion of the common school system to sectarian purposes, yet regarding the Bible as the source of civil and religious liberty, we trust it will continue to be read in all our schools without note or comment.

5. That our thanks are due to the Missionary Board at New York, for the transfer of lands in the neighborhood of Salem, by which the permanence of the university is fully assured.

6. That we commend our faithful and energetic agent, Rev. A. F. Waller, to the continued confidence of the church, and trust that his efforts during the present year may result in the completion and finishing of the university building.

7. That at the request of the trustees of the University, we recommend the re-appointment of Rev. J. H. Wythe, as President, and of Rev. A. F. Waller as agent of the Willamette University.

8. That the following persons are hereby elected additional trustees of the various institutions:

Willamette University—A. F. Waller, G. Hines, E. Strong, J. Holman, E. N. Cooke, G. H. Williams, C. N. Terry, C. Craft, D. Waldo, H. Mulkey, J. Applegate, J. H. Wythe, O. Dickinson, H. C. Benson, M. P. Deady, W. H. Watkins, L. T. Woodward, J. F. Devore.

Portland Academy—14th class—W. S. Ladd, E. D. Shattuck, A. C. Gibbs, C. M. Carter, L. F. Grover, H. C. Benson, E. J. Northrup. 15th class—A. Waltz, W. Masters, J. Failing, O. S. Frambes, T. M. Gatch, M. F. Mulkey, A. C. R. Shaw.

Oregon City Seminary—Chas. Pope, Sen., S. D. Francis, Capt. Pease, J. N. Lewis, and the preacher-in-charge of Oregon City charge.

Santiam Academy—class 2d—Jas. M. Marks, Class 3d—L. T. Woodward, G. W. Odell, W. Ralston, J. Elliott, J. Ralston.

Umpqua Academy—T. F. Royal, N. P. Day, W. N. Allen, O. S. Hinsdale, G. B. Kuykendall, H. Tower.

9. That we recommend the appointment of Rev. T. F. Royal as principal of the Umpqua Academy.

Letter from Walla Walla.

WALLA WALLA, (W. T.) Aug. 21, 1866.

"Een a most everybody" has been complaining of the heat during the past two weeks. The average has been up in the nineties—the highest 104° in the shade. Combined with the, to say the least, moist atmosphere of Portland, this would have been almost unbearable. Here, up in the mountains "as it were," no one has suffered to any great extent. Building over the burnt district, and harvesting, have not been interrupted by the heat.

CROPS.

Speaking of harvesting, reminds me that the crops are turning out very finely in every respect, save the one of price. The miller's have agreed on *sixty cents* per bushel, or one cent per pound for wheat; other grains in proportion. Flour rules at from five to six dollars per barrel; retails at the latter figure. At these figures I do not see where the profits are for Oregon millers, unless they can make a better article of flour, which I greatly doubt.

Harvest hands have been and are scarce at three dollars per day, which has a tendency to largely decrease the income of the farmer. It is my impression that the Internal Revenue for 1866 in this valley will be slim so far as the agricultural community is concerned.

AGRICULTURAL FAIR.

A regular society under the title of the "Walla Walla Agricultural Society," has been organized. It is not limited in boundary to Walla Walla county, but includes that part of the valley lying within the boundaries of Oregon. The society will hold its first annual fair on the 17th, 18th and 19th of October. It will be held in the immediate vicinity of this city. Your agricultural merchants would do well to cause their various improved farm implements to be exhibited, and if possible tested at this gathering of the farmers. I understand that both trotting and running races, with liberal purses, will be held during the fair.

NEW ORIENTAL HOTEL.

The irrepressible Hartman is erecting a large hotel, to be called the "Oriental," on the west side of Main street, near the upper end of town. The building is to be thirty feet front by eighty feet deep, two stories high. The sides and rafters are already up, and the building will doubtless be completed in a month or six weeks. Hartman at [illegible] it keeps a hotel where old "Capt. Jack" did. The new house adjoins the old one. The old one is to be torn down and a new building, twenty-six by sixty-two feet, two stories high, is to be erected in its stead. The ground floor will be fitted up as a bar and billiard saloon, while the upper part will be occupied by Hartman as part of the new hotel.

STREET IMPROVEMENTS.

A much needed improvement is being made on Main street. The whole street is being graded and graveled. The specifications call for twenty inches of gravel in the centre, with seven inches near the gutter, which is paved three feet in width, with a curbing of three-inch (foot wide) plank. When the grading is done, which it is to be on the first of October, Main street will be hard to beat.

Second, Third, Fourth and Fifth streets, where they cross Mill Creek are to be bulkheaded and bridged. The contract is already let, and the work will commence soon.

STARS

Have been plenty during the past month or six week. We have had the starry Halleck, Ingalls, Steel and Beckett, with their respective attendants. Our respected commander of the Department of Columbia, General Steel, passed a couple of days with us; the others barely as many hours each. I understand that General Steel and Ingalls are expected up next month to pass a few days with us in hunting and fishing, for which sports our valley is celebrated.

ON DIT.

It is announced that Newell has heard from "Pud" Evans, that he and the Walla Walla *Statesman* are to print laws for Andrew Johnson. That is the reason why my typ-o-graphic friend became so blood-thirsty and went to "slaughtering" the terrible radicals a couple of weeks ago. I judge the *hear*-ing has not been heard again, as he has been quite gentle since running his truck. Congress must have adjourned in fear and trembling, on account of his wrath.

QUIEN SABE.

Copperhead Falsehoods.

In a short editorial in a Copperhead newspaper, to which our notice was called yesterday, we found so many statements which could be attributed only to either a lack of "brains to comprehend, or sufficient honesty to discriminate between facts and sophistry," that we are constrained to reproduce the several falsehoods, so that our readers may see just how full of the spirit of lying the Copperheads are. This Copperhead article is not by any means more false and mean than the average of Copperhead talk. We quote the following which the editor knew to be false when he wrote the sentences; he knows that everybody else knows them to be false and he knows that history brands them with falsity. Speaking of what the "Radicals do and say," this Copperhead slanderer says:

> No credit is accorded to the men who periled their lives in battle.
>
> No political or public rewards or honors are awarded to the soldiers who do not [illegible] party [illegible].
>
> No amount of personal sacrifice or suffering for the cause weighs a feather with that party in favor of any man as against the party leaders in civil life.
>
> Which one of the [illegible] Radical leaders has not profited by the war?
>
> What Radical can be named who would not cast his suffrage for a shoddy contractor, cotton stealer, deserter from the draft, or bounty jumper, who was a partisan follower of Thad. Stevens, rather than the most devoted soldier of the Union army who sustained the President?
>
> Whatever contributions were made by the radicals to the war, it is now evident, was not with any design to save the Union.
>
> They stand in the absurd position of claiming as their triumph the accomplishment of an object which [illegible] accomplished solely by their opposition.
>
> But for their opposition, the Union would have been restored as perfect and as complete in all its parts as before the war, more than a year ago, and all [illegible] of disturbance would have long since ceased.
>
> But for them the Union would not have been imperiled; there would have been no civil war, no sacrifices, no suffering to maintain the Union.
>
> Had they not announced by their declarations and their undying hostility to the Constitution which formed the only bond of Union, and repudiated their obligations to the same, secession would have had no pretext.
>
> Had they offered to the South any reasonable guarantee against the threatened invasion of their rights, resistance to Federal authority would not have been inaugurated, and the horrors of civil war would have been averted.
>
> They challenged war, not to save the Union, but to abolish slavery.
>
> The same radical majority in [illegible], representing then as now a minority of the people, through caucus rule prevented a compromise and forced the conservatives of the country into a destructive war.
>
> The radicals who provoked the war would accept no terms of compromise, and now alone prevent the restoration of the Union.

Fourteen falsehoods in one editorial of but little more than a half column's length! And we might have quoted more sentences which contain falsehood by implication. Let any man read the above extracts and if he do not recognize and confess to something unqualifiedly or in some degree false, in every one of them, we can only say of him, he is either as "ignorant or as dishonest" as the copperhead who penned them.

A CALIFORNIA LION.—Recently one Lawrence, residing within twelve miles of Santa Cruz, discovered one of his colts lying dead on his premises. The same night he got Henry A. Aldrich, of Oakland, and two other men, to watch for the unwelcome visitor and give him a hearty reception with cold lead. The men failing to discover anything up to two o'clock in the morning, retired, after having sprinkled poison over the carcass of the colt. The next morning they found lying by the side of the colt a dead lion, measuring six feet in length, two and a half feet high, and weighing one hundred and seventy-five pounds—said to be the largest lion ever captured in that locality.

FORTIFICATIONS.—The fortifications at Hurst, at the mouth of the Solent, Southampton harbor, are still progressing. It has been estimated that they will cost £20,000,000. They are of enormous magnitude and strength. The sea-wall, a quarter of a mile long, is being built of gigantic blocks of granite, ten or a dozen tons weight each. The fortifications will be armed with about thirty Armstrong 300-pounders, and each gun costing between £3,000 and £4,000.

GENERAL ROUSSEAU.—General Rousseau has written to a Vicksburg paper which has classed him with the conservative Republicans, that "he never was a Republican, conservative or otherwise," which relieves that party of much undeserved odium.

The Marysville *Appeal* styles the Philadelphia assemblage of political adventurers, "The Masquerade Convention." It says:

> Weed & Richmond, proprietors of the Philadelphia Masquerade, got their properties together yesterday, and the ball opened. There was a delay of a day or two for the lack of two masques to fit and disguise the huge and ugly faces of Vallandigham and Wood. The other gentleman swore he wanted none, but Weed & Richmond were imperative, and insisted that neither should appear in the dance unless completely disguised. Vallandigham and Wood were opposed to masking. They were invited to the ball, and protested they had the right as true Democrats, to appear in Democratic style. In vain the disguised Union dancers plead. Vallandigham appeared to be firm, and there was a prospect the masquerade would break up in a row. But at last Vallandigham compromised the matter by agreeing not to dance at all. He was maddened, and swore if he could not have a square open and shut Copperhead dance he would have none. He was not to be bribed to put on any masks. If he could not find a partner without a mask in a Democratic dance he would not pay the fiddler. Weed & Richmond, the floor managers, finally triumphed. Vallandigham and Wood took their hats and walked out. The Stephenses, Orrs, Doolittles, Blairs, etc., put on their Union masks, the music struck up the new tune of "Andy's soul is marching on," and the dance went on. Stephens took Blair for his partner—Orr accepted the arm of Senator Cowan, and headed the two sets. Here the lightning interrupted telegraphic communication, and we are left in ignorance of how the ball went on.

RAILWAYS IN THE UNITED STATES.—There were in the United States, in September, 1865, 503 railway companies, with nearly 366,000 miles of railway, and spending for actual expenses $1,266,366,000. Pennsylvania has more miles of railroad than any other State, reporting 3,350, and during 1865 constructed more miles than New York and New England combined. Ohio is the second State, with 3,310 miles; and Illinois third, with 3,159 miles. These returns do not include horse railways.

"CALLED" VS. "CHOSEN."—The Gold Hill *News* says, speaking of the Philadelphia Convention: "But suppose it does not 'live' up to its call? Union men were 'called,' but in numerous instances, the meanest, vilest Copperheads have been 'chosen.'"

Both Houses have passed a bill which authorizes citizens sued in a State other than that in which they reside to have the case removed to the Circuit Court of the United States, where the matter in litigation is over $500.

"CONSTITUTION WATER,"

THE ONLY REMEDY FOR DISEASES OF THE

BLADDER, KIDNEYS,

Gravel, Dropsical Swellings,

GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS ATtended this invaluable medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivalled as a remedy for the permanent cure of the maladies above-mentioned, and also—

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS.

And in every disease any way connected with the disorder or decay of the PROCREATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once rebraced, revivified and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor.—The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.
